AMENDMENTS TO THE CLAIMS

I.

1

2

a ballistic nylon.

In response to the above-referenced Office Action, please amend the application in the claims as follows (support for the following claim amendments is found throughout the application specification):

1 1. (CANCELED) A portable climate control dwelling comprising: 2 a collapsible structure defining an enclosure, the collapsible structure 3 interchangeably transformable between a first storage configuration and a second 4 inhabitable configuration defining a predetermined shape and further having a portion 5 defining a resealable climate control unit receiving aperture; and 6 a climate control unit reversibly attachable with the collapsible structure for use in 7 its second inhabitable configuration; whereby the climate control unit conditions the air 8 within the enclosure of the collapsible structure, such that retention of the predetermined 9 shape of the second inhabitable configuration is independent of the climate control unit. 1 2. (CANCELED) The portable climate control dwelling of claim 1, wherein the air is cooled. 1 3. (CANCELED) The pertable climate control dwelling of claim 1, wherein the air is heated. 1 4. (CANCELED) The portable climate control dwelling of claim 1, whorein the cellapsible 2 structure defining the climate control unit receiving aperture comprises an elastic member for 3 engaging the climate control unit to form a weather resistant barrier between the exterior and 4 interior of the dwelling. 1 5. (CANCELED) The pertable climate control dwelling of claim 1, wherein the dwelling if formed from a material selected from the group consisting of polymer, vinyl, nylon, cotton, leather, 3 or combinations thereof. 1 6. (CANCELED) The elimate-central dwelling of claim 5, wherein the dwelling is ballistle 2 nylon. 1 (CANCELED) A portable climate control unit carrier comprising a plurality of straps; 2 configurable-about the exterior of a climate control unit. 1 8. (CANCELED) The pertable elimate centrol unit carrier of claim 1, wherein the dwelling if 2 formed from a material selected from the group consisting of polymer, vinyl, nylon, cotton, leather, 3 or combinations thereof.

9. (CANCELED) The pertable climate central unit carrier of claim 8, wherein the dwelling is

1	10. (CANCELED) A tent adapter, comprising:					
2	a flange having a front and a back, at least a portion of the back affixable to a					
3	tent;					
4	a-boot having first and second ends defining a longitudinally extending aperture					
5	there between, the boot affixable at the first end perpendicularly to the flange for affixing					
6	a-c-limate-control unit to a tent.					
1	11. (CANCELED) The adapter of claim 10, wherein the second end of the boot has					
2	an elastic edge.					
_	an classic eage.					
1	12. (CANCELED) The adapter of claim 10, wherein the second end has a closure					
2	for closing the aperture at the second end.					
1	13. (CANCELED) The adapter of claim 10, wherein the adapter formed from a					
2	material selected from the group consisting of polymer, vinyl, nylon, cotton, loather, or					
3	combinations thereof.					
1	14. (CANCELED) The adapter claim 13, wherein the adapter is a ballistic nylon.					
1	15. (CANCELED) A kit comprising a collapsible structure defining an enclosure, the					
2	collapsible-structure-interchangeably-transformable-between-a-first-storage-configuration and a					
3	second inhabitable configuration and further having a portion defining a pliant, resealable climate					
4	control unit receiving aperture, wherein sald second inhabitable configuration may be established					
5	and/or retained at the prodetermined shape in the absence or presence of a climate control unit.					
1	16. (CANCELED) The kit of claim 15, further comprising a climate control unit.					
1	17. (CANCELED) The kit of claim 15, further comprising a climate control unit					
2	earrier.					
1	18. (CANCELED) The kit of claim 17, wherein the climate unit is an air conditioner.					
1	19. (CANCELED) The kit of claim 17, wherein the climate control unit is a heater.					
1	20. (CANCELED) . The kit of claim 15, further comprising an adjustable stand for					
2	holding a climate control unit at a predetermined distance in relation to the dwelling.					
1	21. (CANCELED) A portable climate control dwelling comprising:					
2	a collapsible structure defining an enclosure, the collapsible structure					
3	interchangeably transformable between a first storage configuration and a second					

4 inhabitable configuration defining a predetermined shape and turther having a portion 5 defining a resealable climate control unit receiving aperture the resealable aperture 6 comprising a flange having a front and a back, at least a portion of the back affixable to 7 the collapsible structure, the collapsible structure formed from a material selected from the 8 group consisting of polymer, vinyt, nylon, cotton, leather, or combinations thereof; 9 a boot having first and second ends defining a longitudinally extending aperture 10 there between, the beet affixable at the first end perpendicularly to the flange for affixing 11 a cimate control unit-to the collapsible structure; 12 a climate control unit reversibly disposed at least partially within the boot for use in 13 the second inhabitable configuration of the collapsible structure; 14 a support member for supporting the climate control unit in a prodetermined 15 location in relation to the collapsible structure; and 16 a restraining member securely and reversibly coupling the climate control unit to 17 the support member; whereby the elimate control unit conditions the air within the 18 enclosure of the collapsible structure, such that retention of the predetermined shape of 19 the second inhabitable configuration is independent of the climate control unit. 1 22. (CANCELED) The portable climate control dwelling of claim 21, wherein the air 2 is cooled 1 (CANCELED) The portable-climate-control dwelling of claim-21, wherein the air 23. 2 is heated. 1 24. (CANCELED) The portable-climate-control-dwelling of claim-21, wherein the 2 collapsible structure defining the elimate control unit receiving aperture-comprises an elastic 3 member for engaging the climate centrel unit to form a weather resistant barrier between the exterior and interior of the dwelling. 1 25. (CANCELED) The portable climate control dwelling of claim 21, wherein the 2 dwelling is formed from a material selected from the group consisting of polymer, vinyl, nylon, 3 cotton, leather, or combinations thereof. 1 26. (CANCELED) The climate central dwelling of claim 24, wherein the dwelling is 2 ballistic nylen. 1 27. (CANCELED) A portable climate control unit carrier comprising a plurality of 2 straps, configurable about the exterior of a climate control unit.

1	28.	(CANCELED)	The pertable climate control unit-earrier of claim 21, wherein the			
2	dwelling if to	twelling if formed from a material selected from the group consisting of polymer, vinyl, nylon,				
3	cotton, leather, or combinations thereof.					
1		/===.=.
